

Work with greater ease and value.

WORK EZ Rear Blades

GRADE WITH MORE CONTROL AND VALUE.

Available in light-, standard- and heavy-duty models in working widths from 5' to 9', Work EZ rear blades are perfect tools for landscape grading, seedbed preparation, construction clean-up, spreading material, even snow removal.

Curved for rigidity and strength, moldboards on all nine economical Work EZ rear blade models provide plenty of room for scraped material to collect. On most models, blade tilt and angle can be adjusted to match the job, and an offset adjustment lets you work close to obstacles. The blade's cutting edge is reversible, giving you twice the life.

As with all Work EZ implements, rear blades are designed for use with any brand, model or year of compact or utility tractor (from 30 to 100 hp, depending on blade model) equipped with a three-point hitch. Add one to your tractor and grade with greater control and value.

Work EZ Rear Blades –

- complement your tractor's horsepower and performance
- offer excellent value
- are backed by the full support of your New Holland dealer

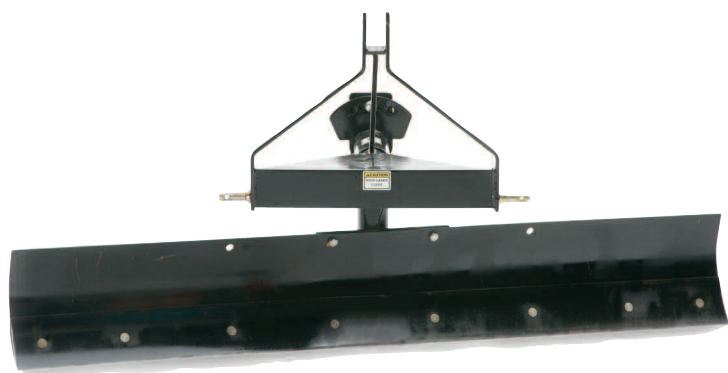

Economically priced Work EZ implements include nearly every piece of equipment you need to work with ease and value around your property or jobsite. From box blades to rakes and discs, Work EZ implements are backed by the parts and service expertise of your New Holland dealer.

Work with Ease and Value: No matter what make, model or year of compact or utility tractor you work with, if it has a three-point hitch, there's an economical Work EZ implement ready to help you do more – for less.
